Attention: Adrian Alting-Mees – Regulatory Compliance Manager

Subject: Notification of Transport Canada Acceptance of FAA STC ST02076LA
Aircraft: Boeing 737 600/700/800 Series Aircraft
Title: TDG Universal Fault Interrupter for Centre Fuel Tank

This will notify you that Transport Canada has reviewed and accepted FAA STC ST02076LA in respect to the subject aircraft in accordance with the Bilateral Aviation Safety Agreement between the US and Canada without the issue of a corresponding Canadian STC.

The Boeing 737-900 Series was not included in this acceptance because this model has not yet been type certified in Canada.

This STC will be added to the Transport Canada listing of FAA STC's which have been accepted or familiarized in Canada. This listing is available on the TC Web Site at:
http://www.tc.gc.ca/aviation/applications/nico-celn/en/adv_search.asp?x_lang=e

This letter confirms formal acceptance of the referenced STC by Transport Canada.
